NEW JERSEY

(Pages 703 to 844 inclusive)

A THIRD YEAR in which we have collaborated with the Medical Societies of New York and Connecticut by compiling the essential data for the New Jersey section, finds many changes and corrections in the listings of physicians as well as the addition of new practitioners establishing residences in the State.

The total number of physicians registered in the State of New Jersey at the start of this year is 5,332—at the same date in 1938, it was 4,929.

We appreciate the cooperation of the State's physicians in reporting changes and corrections to be made in their listings which enabled us to make the data as informative and accurate as possible.

All communications pertaining to listings in the New Jersey section should be made direct to our Executive Offices at Trenton, N. J.

MEDICAL DIRECTORY
280 MADISON AVE., N. Y.

CONNECTICUT

(Pages 845 to 899 inclusive)

THE TOTAL PHYSICIANS in the State of Connecticut, listed in the following pages, is 2,500. This number last year was 2,221.

In assisting the Medical Society of the State of New York to publish a more complete Medical Directory, we appreciate the cooperation of the physicians of our State who have aided so materially in furnishing the essential data which had to be compiled for the Connecticut section. This cooperation alone makes it possible to furnish such complete and valuable data which is making this Directory a more useful source of reference for physicians of this State.

The reporting of changes or corrections as soon as they occur, by the physician concerned, is greatly appreciated, and prompt return of requests for verification of standing data as solicited prior to the publishing of revised editions is also appreciated. All communications to listings in the Connecticut section should be made direct to our Executive Offices at New Haven, Conn.
